

Having the correct team of staff for OPAL is our priority.

St Margaret Clitherow RC Academy commits to ensuring the right people are always in post to continue to make playtimes the best they can be. We have rebranded our midday supervisors who are now are incredibly important Play Team. All members of our team are continually trained in effective play interactions and risk benefit management. We meet monthly to address areas for improvement and celebrate the successes seen daily thanks to OPAL. See below for the structure of OPAL staff members at St Margaret Clitherow. We believe that play is highly important to help our children develop in so many ways, and we have therefore invested lots of staff involvement to support with this.
